SLO PLUS

Contents

- **TRANSSLO-plus project:**
 - Origin
 - Aims
 - Tasks
 - Achieved results
 - Future potential

Origin of TransSLO-PLUS project

- **Continuity of research**

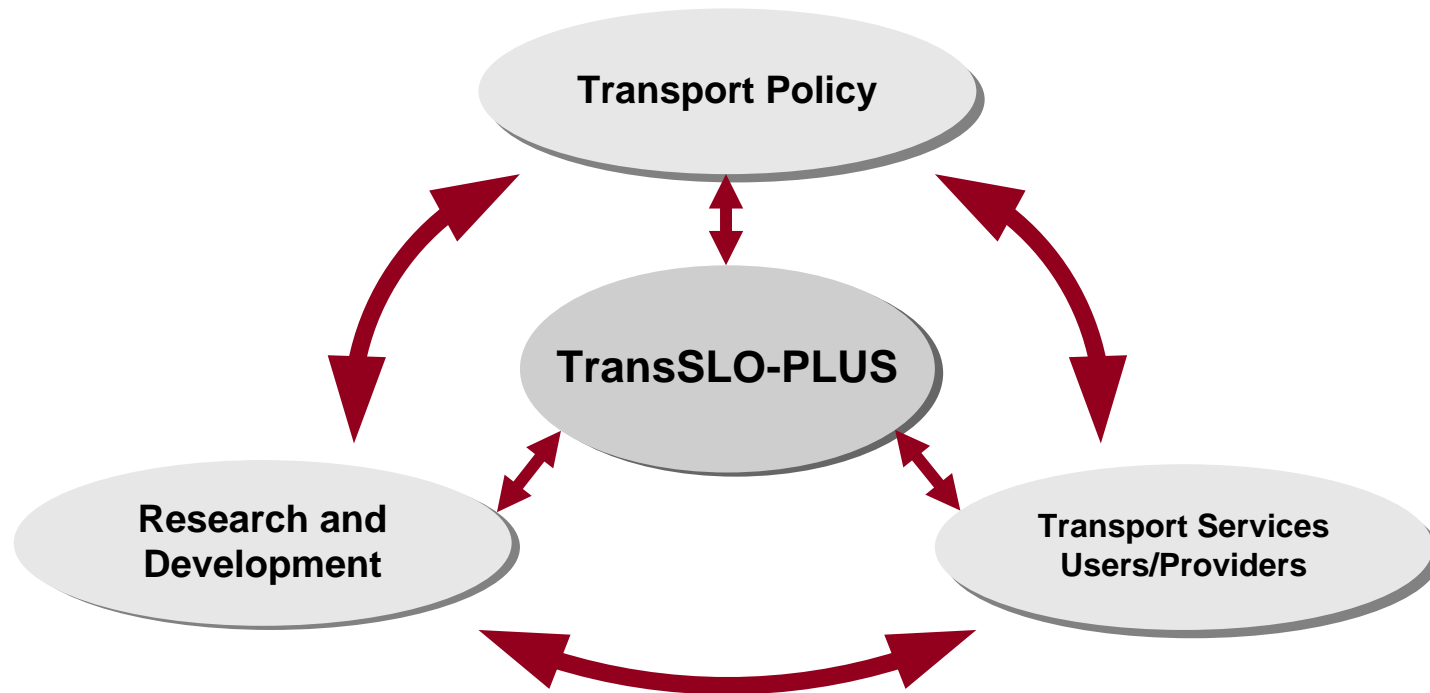

Basic findings of TRANSLO project:

- **Poor co-operation among Slovenian transport research community !**
- **Too few Slovenian transport research organisations present in the EU transport research networks, which generate innovative solutions of common transport / logistics problems**

Aims of the TransSLO-PLUS project

- To **establish Slovenian** transport / logistics **research network**
- **To assure:**
 - Adequate support **information infrastructure**
 - **Dialog** between **stakeholders**

TransSLO-PLUS - dialog concept

Aims of the TransSLO-PLUS project

- To **identify** the most **relevant** transport / logistics research **topics**. Within the **framework of** :
 - The **needs** of the transport / logistics services **users and providers**,
 - basic **research guidelines** of the Slovenian **Ministry of Transport and**
 - research **priorities** of the **EU**.

Tasks of TransSLO-PLUS

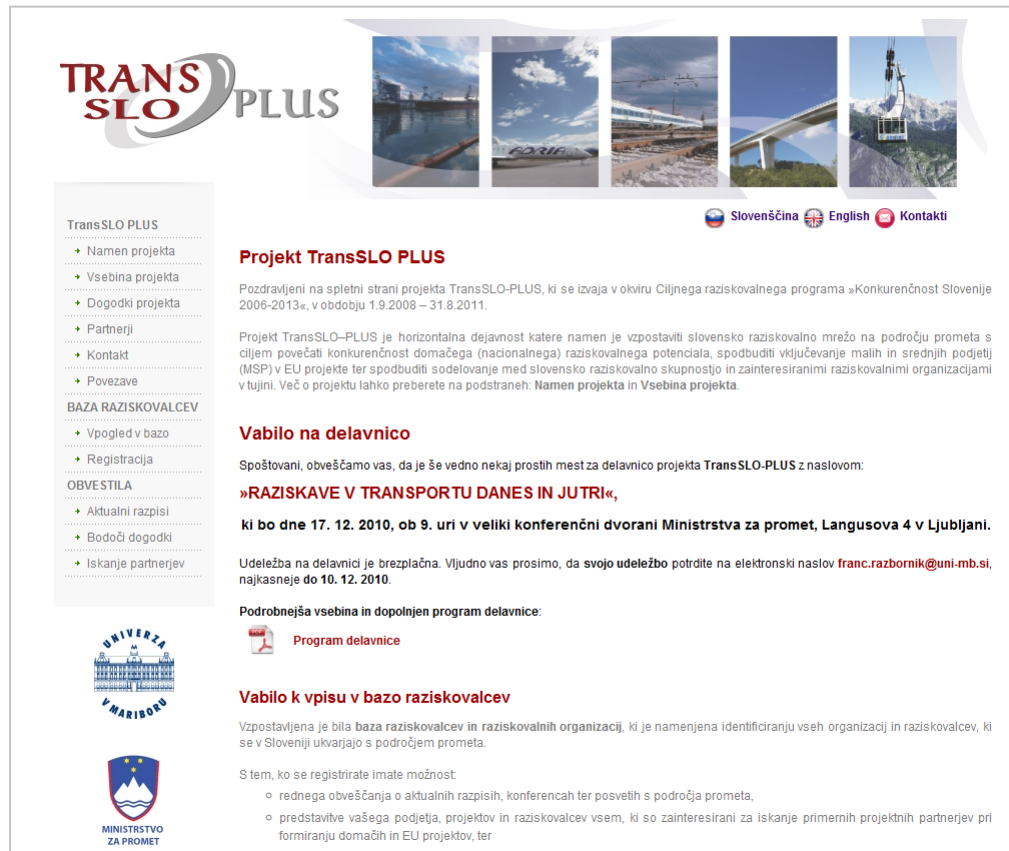

- To assure:
 - **overview** over the transport **research results**
 - **on time information** about the **future** research opportunities (calls)
- **Encourage cooperation** among transport **research and transport demand/supply companies**
- Encourage **efficient** transfer of research **results** to the **end-users**

Tasks of TransSLO-PLUS

- To **increase competitiveness** of Slovenian transport / logistics **research capacities**
- To encourage **SME's** to take part in the **EU research projects**
- To assure **better co-operation** and encourage **division** of labor among **Slovenian and European** research community

TransSLO-PLUS Results

- Draft national research program
- Established information infrastructure
 - Web page: www.translo-plus.si,

TRANS SLO PLUS

Projekt TransSLO PLUS

Pozdravljeni na spletni strani projekta TransSLO-PLUS, ki se izvaja v okviru Ciljnega raziskovalnega programa »Konkurenčnost Slovenije 2006-2013«, v obdobju 1.9.2008 – 31.8.2011.

Projekt TransSLO-PLUS je horizontalna dejavnost katere namen je vzpostaviti slovensko raziskovalno mrežo na področju prometa s ciljem povečati konkurenčnost domačega (nacionalnega) raziskovalnega potenciala, spodbuditi vključevanje malih in srednjih podjetij (MSP) v EU projekte ter spodbuditi sodelovanje med slovensko raziskovalno skupnostjo in zainteresiranimi raziskovalnimi organizacijami v tujini. Več o projektu lahko preberete na podstrane: **Namen projekta** in **Vsebina projekta**.

Vabilo na delavnico

Spoštovani, obveščamo vas, da je še vedno nekaj prostih mest za delavnico projekta TransSLO-PLUS z naslovom:

»RAZISKAVE V TRANSPORTU DANES IN JUTRI«,

ki bo dne **17. 12. 2010, ob 9. uri** v veliki konferenčni dvorani Ministrstva za promet, Langusova 4 v Ljubljani.

Udeležba na delavnici je brezplačna. Vljudno vas prosimo, da svojo udeležbo potrdite na elektronski naslov franc.razbornik@uni-mb.si, najkasneje do **10. 12. 2010**.

Podrobnejša vsebina in dopoljen program delavnice:

 **Program delavnice**

Vabilo k vpisu v bazo raziskovalcev

Vzpostavljena je bila baza raziskovalcev in raziskovalnih organizacij, ki je namenjena identificiranju vseh organizacij in raziskovalcev, ki se v Sloveniji ukvarjajo s področjem prometa.

S tem, ko se registrirate imate možnost:

- o rednega obveščanja o aktualnih razpisih, konferencah ter posvetih s področja prometa,
- o predstavitve vašega podjetja, projektov in raziskovalcev vsem, ki so zainteresirani za iskanje primernih projektnih partnerjev pri formiranju domačih in EU projektov, ter

TransSLO-PLUS Results

- **Up-to-date** information about: research calls, events, search for partners ...
- **Transport Research Database** (researchers, organisations, projects)

TransSLO-PLUS Results

- **Three** national/international workshops focused on :
 - Presentation of:
 - Slovenian transport **research results**
 - Research **opportunities** in the **EU**
 - **financing** problems of some of the EU transport research schemes
 - **Networking** and established **Dialog** among transport **policy**, transport **research** and transport/logistics services **users and providers etc.**

TransSLO-PLUS Results

- **SEETRANS 2011**
 - **Integration of Slovenian and relevant EU networks** (ETNA, wbc-inco.net) aiming at:
 - **networking** and
 - **promote co-operation** for
 - **successful** participation at future **7 FW** and **8 FW** calls not **only Slovenian** but also other **SEE** transport research **capacities**.

TransSLO-PLUS - Future Potential

- To **transfer** TRANSSLO-plus **best practice experiences** to the other interested in **SEE countries**
- To **establish** SEETRANS as **continuous meeting point** between the:
 - transport **research community** of SE Europe and
 - research **challenges, opportunities and needs** of the rest of the **EU**

I thank you for your kind attention!
